

FOR IMMEDIATE RELEASE

Polar Systems, Inc. Named to MSPmentor 100

**Exclusive Listing Honors the Technology Industry's
Most Progressive Managed Service Providers**

February 7, 2008: Polar Systems, Inc., a leading Northwest computer network services company, announces that it has earned a listing on the MSPmentor 100, a distinguished list of the world's most progressive managed service providers.

The MSPmentor 100 recognizes managed service providers, integrators, consulting firms and VARs that offer proactive, managed services to vastly improve customer service compared to the old fix-it-after-it-breaks way of offering IT service. Through managed services, solutions providers deliver proactive, 24x7 customer care to enterprises of all sizes. The net result for customers is lower lifecycle costs and a dramatically improved IT infrastructure that speeds the flow of business.

"This recognition from a respected industry publication not only underscores the value that managed services providers are delivering to their customers," said Charlie Tragesser, President and CEO of Polar Systems, "it shows that Polar Systems is a national leader in this fast-growing market segment."

"Qualifying for the MSPmentor 100 is an amazing accomplishment," said Joe Panettieri, editorial director of MSPmentor, published by Nine Lives Media Inc. "We analyzed the business performance of more than 500 technology consulting firms and managed service providers worldwide. Only the 'best-of-the-best' landed on the MSPmentor 100."

The complete MSPmentor 100 report, along with comprehensive coverage of the managed services market, can be found at www.mspmentor.net.

About Polar Systems, Inc.:

Polar Systems, Inc., founded in 1981, is an information technology services firm whose clients represent one of the largest installed bases of local and wide area networks in Oregon and Southwest Washington. In addition to Polar System's managed services offering (named PolarStar), the company also offers software integration and development services, specializing in financial and accounting solutions for business and non-profit organizations.

About MSPmentor:

MSPmentor (www.mspmentor.net), published by Nine Lives Media Inc. (www.ninelivesmediainc.com) is the independent voice of managed service providers. It delivers news analysis, timely insights, and how-to information for managed service providers that are seeking to maximize their recurring revenue.
